

First Model A (1940) – Duane Stevenson

I think it was in 1940 I bought my first car, a two door model A. It was on a car lot. It had been owned by our church janitor. I asked him if it was a good car. “Sure”, he said, “go buy it, it was a good car – nothing wrong with it. I just traded it in because I wanted a newer model. Yes, to ahead”. It cost me \$35. I was just a kid and didn’t have the money to buy insurance and license plates. I just took it home and parked it until I had the money. I had a very lucrative job paying \$15 a week so I could save up money. So that was my first model A that bought when I was 17 years old.
